

Diver Platform® Distributor Advisor™ for Beverage

Improve Productivity & Be More Efficient

The Challenge

Sales and management people have a difficult job. It is especially tough when tools are scattered across devices and networks. But tools for sales and management are vital for getting the data analysis and content needed to do their jobs effectively. There are other data analysis and content delivery solutions on the market. But customizing these solutions for distributors is time-consuming, costly, and for some solutions — just impossible to do.

The Solution: Distributor Advisor

Distributor Advisor was designed for fast and easy access to data and files from anywhere. It was developed specifically for distributors in the beverage industry. Because of this, users can get up and running fast and cost effectively. This allows users to focus on what is important to them.

Distributor Advisor is an application built to access, sync and store information on a multitude of devices:

- Desktops
- Windows®-based tablets
- Laptops
- iPads®

Distributor Advisor's intuitive user interface makes it easy to navigate around presentations, data, and metrics.

Users have everything they need at their fingertips. They can review the business performance down to account levels from anywhere and focus on capitalizing on new opportunities.

Distributor Advisor gives your team the most up-to-date information when and where they need it. Using DiveTab mobile technology, Distributor Advisor users have immediate and secure access to the latest metrics

at any time, from any location. This empowers teams to base their management and product promotion decisions on the most recent data, regardless of their location. Content typically stored in Distributor Advisor includes:

- Marketing Material
- Presentations
- Financials
- Product Sales
- Analytics
- Inventory

It is all stored in one application, Distributor Advisor.

Distributor Advisor is built on the award-winning Diver enterprise platform and the DiveTab component. Diver provides role-based privileges, ensuring that the right people have access to the right information. Managers can push approved sales presentations or proposals out to make sure the entire team has the right version of content available at their fingertips.

Increase Sales Productivity

Distributor Advisor’s interactive sales dashboard allows teams to quickly access specific information. Users conduct sales data analysis and review KPI sales metrics. They can securely review the latest sales metrics, financial data, and promotion performance figures. With this kind of information access, users can improve product and account management to capitalize on growth opportunities.

Access Any Type of Content

With Distributor Advisor, your entire mobile workforce can gain access to information from anywhere, anytime they need it. Users are able to bring together sales data with all types of content:

- Merchandising Collateral
- Promotional Collateral
- Price Sheets
- Product Displays
- Event Pictures

Connected or Disconnected Mode

The application is synced while its device is connected to the Internet — either wired, wirelessly, or over a data plan. Synced information is stored locally on the device for offline use. This allows users to securely access marketing material, price sheets, presentations, and analytics from anywhere. Having this kind of access increases effectiveness of customer meetings and presentations.

The screenshot shows the 'Overview' page in the DiveTab application. It features a top navigation bar with a 'Menu' button and a 'Sync' button. Below this is a filter bar with tabs for 'Current Date' (2017/07/10), 'District Manager' (All Values (66)), 'Area Manager' (All Values (68)), 'Product Type' (All Values (21)), 'Supplier' (All Values (51)), 'Brand' (All Values (743)), and 'Premise' (All Values (7)).

The main content area is divided into two sections: 'Month to date, last year Same Day Compare' and 'Year to date, last year Same Day Compare'. Each section contains a table of sales metrics. The 'Month to date' table includes rows for 'Dive In', 'MTD', 'MTD LY', 'MTD +/-', 'MTD %', 'New', and 'Lost'. The 'Year to date' table includes rows for 'Dive In', 'YTD', 'YTD LY', 'YTD +/-', 'YTD %', 'New', and 'Lost'. Each row contains columns for 'Cases', '9L Cases', 'Accts', 'Gross Sales', 'Gross Profit', and 'GP%'. To the right of these tables is a 'Sales Organization' tree view showing a hierarchy from 'Sales Office' down to 'Customer'.

At the bottom of the screen, there is a status bar with 'Sections Sync Last Sync: 7/19/2019 10:41 AM' and a 'Logout' button.

Distributor Advisor overview of all sales activity.

About Dimensional Insight
